Preview Mod: Survival Shooter The last day on Earth is located in a post apocalyptic world: in 2027 the world saw an outbreak of an unknown infection that destroyed almost all of the human race. And it didn't stop there. All those dead began to become zombies, and the few survivors who have resistance in their blood are trying to survive on the ruins of a once great world. And now the survival of your character is only in your power! Pay attention to the life of your character statistics such as hunger and thirst, collect valuable resources for crafting, create weapons and transport different types, or use what you have at hand: bat or road sign. Everything comes in line for killing dozens... Hundreds... Thousands of zombies! Defeat intruders into your country not only with your power, but also cunning – build fortifications with traps or go raid other survivors' territories for the sake of rare loot and resources. After all, people can do anything to survive. Hardcore fans will have a lot to do in tough seasonal places. Before going on a desperate journey, equip your survivor with the most overwhelming weapon to hunt wildlife and Crowds of mutated zombies. One can reach a seasonal location for transportation that is available for crafting. In addition, if, if the Pass the walls west of the map you enter an online place where the special costume on, you will be able to communicate with other players. Explore the great and deeply laid world of The Last Day on Earth! Upgrade your hero, equip your house, loot abandoned territories, hunt wild animals and other survivors - the new world has new rules. Will you survive in conditions like these? If so, what price are you prepared to pay? TIP: Game crash, force close, can not run. How to fix it? Download the obb file on the last day of earth survival then extract the file in that one folder would be there inside that you will find the file in white copy of that . Then go to the mobile phone file manager in the Android folder in this data folder you will see click on the data folder in this button you will see zombie.survival.craft.z click on it and paste it . Then restart your cell phone and then start playing The Last Day on Earth Survival won't ask you to make it up to the data enjoying playing. I hope you have your solution man. Download APK Hold on app, on app info Allow storage permission! That's what's causing the crash. Then the same page on the info app allow you to view at the top. That's all. For on-premises game storage and storage in storage in storage in Goto Internal Storage / Android / Data Scroll all the way to the bottom. zombie.survival.craft.z < That's it! Once you've played for a while and want to keep/save you progress to be safe... Copy zombie.survival.craft.z to a safe place. Put it as a backup, in a safe place. That's it, it's locally backed up... So if the application errors out or removes. Paste the game to save in internal storage / Android / Data, but.. Only after you open the game once, on fresh. Then close the game and paste the save . Waaahla For storing clouds. You need to modded the game to save it. Remove the modded version of the game. Download it again from the Google Play Store. Click the account you want to sync with. You can only do this once. Open game. Without saving. Close the application once fully loaded, into the world. Again paste you game save to / data again. Reopen the app and connect your Google Account under Settings. As soon as you say connected boom! You're stored in the cloud! You can't lose you progress now. Re-add mods Remove the game, and reinstall the modded version. Do not forget to click on the same Google Account went gives you a challenge. Load the game into the world, close it, then paste the save. Also, if the floating icon disappears off the screen, just press your recent application button, gesture. Then back in the app. Thank you for doing this, but the mod menu does not work. I use the save I found online.
